See, for a long time I was pushing online repair manuals from Alldata and Mitchell1. I made some money, and in all fairness, they have a great product. The online manuals gave excellent repair information, had the exploded views and wiring diagrams that I needed to fix my car plus kept me up to date on recalls and TSB information. Alldata was bought by AutoZone and they made the decision to release most of their DIY Repair information to the public on their website AutoZone.com. The reality is that many car brands were pulling their repair information off of AutoZone and coverage was getting thin. I believe AutoZone made the decision that this was no longer helping bring in parts sales and removed the repair information from their website. You can still get their excellent repair information on Alldata or checkout Mitchell1 which I recommend highly as well. Please note, these other methods are illegal and not a recommended way to procure an auto repair manual. Most automakers have electronic versions of at least some model years manuals available for free. Your manual will tell you everything from the curb weight of your car to the type of gas and oil you should use. It includes information about replacing the tires, decoding the dashboard lights, and even changing your headlight bulbs. Needless to say, your manual is a handy reference book tailored to your specific make, model, and year of car. Perhaps you bought a used car that was missing its manual, or maybe your own manual met with a big disaster. Sometimes, your car's manual may go MIA for no reason at all, ending up in that household purgatory along with all those missing socks and puzzle pieces. Regardless of the reason, if you're missing your owner's manual, you need to find a new one. On the other hand, if you want to print your manual yourself or save it on your hard drive, you can often download a copy for free. Most automobile manufacturers provide free electronic versions of the owner's manual for their cars. In some cases, you'll need to register with the site in order to access the information.
